Neighbourhood House Networks: an information resource

last updated June 2016
Acknowledgements

The Neighbourhood House Networks Information Resource would not have been possible without the contribution and commitment of all the NH Networkers and Network representatives.

Thanks go to Jennifer Corcoran, a second year practical placement student in the Diploma of Arts, Professional Writing and Editing at Victoria University, who compiled this document and to Elizabeth Richards, Office Manager at Neighbourhood Houses Victoria, who worked tirelessly on the maps.

Neighbourhood Houses Victoria acknowledges the Department of Planning and Community Development (formerly Department for Victorian Communities) for funding the project as part of Neighbourhood Houses Victoria’s core grant for 2006-2007.

Introduction

The NH Network: an information resource provides a profile of each of the 16 Regional Neighbourhood House (NH) Networks across Victoria. The booklet also includes sections of the Neighbourhood House and Learning Centre (NH&LC) Sector Framework and the Neighbourhood House Network Practice Framework. Together these are a full description of the values and style of practice that underpins the operations of the Networks.

The 16 NH Networks provide management and operational support, as well as resources, to their member Houses and Centres. This includes personalised support to Committees of Management, staff and volunteers. NH Networks also have a facilitative role, enabling their members to participate in broader community development strategies.

Management

The NH Networks are managed by volunteer committees, or collective management groups drawn from local Neighbourhood House and Learning Centre sector representatives. Generally, volunteer committees and collective management groups are responsible for all financial management, employment issues and governance of the Network. They guide the development and strategic directions of the Network, and support and supervise the Networker. Membership of a Regional Network is an organisational membership.

Clusters

A variety of sub groups of Neighbourhood Houses and Learning Centres function within and across the boundaries of some NH Networks. These sub groups are known as Neighbourhood House and Learning Centre Clusters. They vary in size and degree of formality but generally exist to provide support and networking opportunities to group member Houses and Centres. A cluster develops because its members identify as being part of a specific local government area, geographical location, Adult Community & Further Education (ACFE) funding provision category or other linking common feature.

Funding

NH Networks receive recurrent funding from the Department of Health & Human Services (DHHS) through the Neighbourhood House Coordination Program. Funds are allocated on the basis of hours of coordination to be provided in accordance with funding agreements. DHHS provides coordination funding to Neighbourhood House Networks to facilitate governance and management support, advice on programs & service development, training & training resources to Neighbourhood Houses within their Network and to provide capacity building and effective linkages with and between Neighbourhood Houses and other community organisations at the local and regional level.

In some cases NH Networks receive recurrent funding from local government. Many Networks also access a variety of other sources for diverse project funding. Membership numbers, geographical size and number of hours funded vary widely and are detailed within the profiles of each NH Network.

Neighbourhood House & Learning Centre Sector Framework

Sector Vision
Building community, valuing diversity

Sector Purpose Statement
Building sustainable community connections with choice, opportunity and flexibility that is responsive to local needs and issues.

Sector Philosophy Statement
The Neighbourhood House and Learning Centre sector works within a community development framework. Change and growth occurs through informing and empowering individuals and communities. Houses and Centres do not seek to do for others but to empower others to do for themselves. Members are encouraged to be actively involved in decision making and to have ownership of the programs and activities in their house or centre. Neighbourhood Houses and Learning Centres integrate learning into all aspects of their activities.

Neighbourhood Houses and Learning Centres actively work to redress structural disadvantage in society through their philosophy, principles and practices. They are inclusive and supportive of people from diverse backgrounds and with varying abilities. Houses and Centres aim to improve the social, environmental, economic and cultural infrastructures within their communities.

Sector Principles

Community Ownership:
To set, manage and control the direction, resources, decision-making and processes of the Neighbourhood House or Centre in order that local volunteer members have a sense of ownership and intrinsic belonging.

Community Participation:
To recognise that everyone has a valuable contribution to make and to facilitate community members to join in at any level. Volunteers and community members are integral to the decision-making, evaluation, provision, participation and direction setting at all levels of the organisation.

Empowerment:
To put into practice a process which respects, values and enhances people’s ability to have control of their lives. This process encourages people to meet their needs and aspirations in a self aware and informed way which takes advantage of their skills, experience and potential.

Access and Equity:
To ensure fair and equitable access for all people. Striving to make accessible to individuals, groups and the community meaningful opportunities, programs, activities and services. To promote a fairer distribution of economic resources and power between people.

Life Long Learning:
To build and support the personal skills, knowledge, abilities and resilience of people. To develop the health, wellbeing and connection of people and their families, through formal and informal pathways in education, employment and self-development.

Inclusion:
To value the diverse contributions that people make and to be sensitive to their individual needs.

Networking:
To link, form alliances, collaborate and work with individuals, groups, other agencies, government and business.

Advocacy:
To act with and on behalf of community members to endeavour that their individual or group needs are met.

Self Help:
To come together in a supportive group environment to share information, knowledge, skills and life experience in order that each participant can reach their own personal goals.

Social Action:
To analyse internal and external factors that impact on the local community, to transform relationships between individuals, groups and organisations and within the community through collective action.

The Neighbourhood House and Learning Centre sector works in a community development framework with a membership-based governance model. This builds social connections and networks that are based on trust, respect and reciprocal interaction – known as social capital.
Neighbourhood House Network Practice Framework

What are Neighbourhood House Networks and how do they work?

The 16 Regional Neighbourhood House Networks operate across the State in a variety of ways. At the local or Network level the NH Networks (most of which employ a Networker) provide local support and advocacy for Houses and Centres in that Network. They are autonomous, community-managed and incorporated bodies. Their work is varied and complex, and is reflective of the requirements of their member houses and centres, the communities of these houses and centres, the broader sector, and the community at large.

NH Networks are also an integral part of the NH&LC sector. Their relationships with their member houses and centres, with each other and with the peak body, Neighbourhood Houses Victoria, other organisations and the broader community are an essential element of the sector.

NH Networks play a key role in representing the views and needs of members and act as an interface between members and Neighbourhood Houses Victoria, local government and state governments, other organisations and the broader community. Their governance and operational training and support enhance the capacity of their members to operate effectively to meet funding requirements and local community needs.

The vital ingredient that binds together the three parts of the NH&LC sector – the peak body Neighbourhood Houses Victoria, the 16 Regional NH Networks and the more than 400 Neighbourhood Houses and Learning Centres across the State – is the particular style of practice, which is underpinned by the 10 Sector Principles outlined in the Sector Framework. The three parts of the sector work collectively to take the whole sector forward.

The NH&LC sector style of practice is facilitative and developmental, and fundamentally relies on strong and inclusive relationships both within the individual Houses and Centres and the wider community. The sector, including the NH Networks, operates within a social justice framework.

As a result of this style of practice Regional NH Networks are very flexible and responsive, leading to an enormous breadth and depth of outcomes at the community, municipal and state levels.

At the State level all NH Networks, represented by their Networker or other representative meet regularly with the peak body, Neighbourhood Houses Victoria to discuss local and state-wide sector issues. This coming together of the NH Networks is known as the Combined Networks. This body is a key mechanism for a range of collaborative activities.

A protocol “Defining Ways of Working Together” to guide the procedures for communication, accountability and decision-making between the NH Networks, their members and Neighbourhood Houses Victoria has also been developed and is designed for internal use within the sector.
Neighbourhood House Network Style of Practice: Key Tasks

Within their Network

- identify the support, resourcing and advocacy needs of member Neighbourhood Houses & Learning Centres
- provide one on one support to members on governance, management & operational issues
- facilitate capacity building and resourcing of members
- coordinate information dissemination and sharing
- build the capacity of the Network
- connect and engage in regional and state-wide networks and structures
- advocate on behalf of members at the local, municipal, regional and state level
- work according to the NH&LC Sector principles
- work within a community development framework as defined in the NH&LC Sector Framework
- ensure the viability and vitality of the Network

With the Neighbourhood Houses Victoria

- promote to their membership the Sector philosophy and principles as detailed in the NH&LC Sector Framework
- be active participants and contributors to the work of Neighbourhood Houses Victoria
- make recommendations to the Neighbourhood Houses Victoria Board on collective issues
- represent & advocate mutually agreed positions and policies in conjunction with Neighbourhood Houses Victoria
- collect & disseminate relevant information from Neighbourhood Houses Victoria to members and to Neighbourhood Houses Victoria.

With the Broader Sector

- practice & promote community development as defined in the NH&LC Sector Framework
- facilitate the networking, collaboration and partnership of Neighbourhood Houses & Learning Centres with organisations, business and government
- act collaboratively in the best interests of the NH&LC Sector
- contribute to the development of NH&LC Sector priorities
- advocate on behalf of the NH&LC Sector

With the Other Networks

- share & develop resources for the NH&LC Sector
- support and share the practice and experience in management and operations of a Network
- share the learnings from local advocacy strategies and processes
- work collaboratively to advocate on behalf of the NH&LC Sector
- participate regularly in peer support and professional development for Network representatives and Networkers
- work collaboratively on projects

With the Wider Community

- assist member Houses & Centres to employ the 10 sector principles – community ownership, community participation, empowerment, access and equity, lifelong learning, inclusion, networking, advocacy, self help, and social action – in their planning and development processes across the practice of governance, management, operations and delivery
- facilitate the participation of the wider community in advocacy strategies and processes on community issues

Neighbourhood Houses Victoria

Neighbourhood Houses Victoria was established in the early 1980s as the peak body for Victorian Neighbourhood Houses and Learning Centres. Neighbourhood Houses Victoria currently has a membership of over 400 organisations - most of the Houses and Centres in the state.

Neighbourhood Houses Victoria provides strategic leadership for Neighbourhood Houses in Victoria, supporting members with effective state-wide advocacy, quality research, and timely advice on relevant policy and legislative developments.

The Vision of Neighbourhood Houses Victoria

The vision of Neighbourhood Houses Victoria is of just and empowered local communities in which our member organisations provide opportunities for people’s participation and learning.

The Mission of Neighbourhood Houses Victoria

The mission of Neighbourhood Houses Victoria is to support and develop the movement of Neighbourhood Houses and Community Learning Centres as individual organisations and as a collective.

Membership provides:

Influence

Advocacy: Practical support with local and state-wide campaigning to meet the needs of your Neighbourhood House and your community

Having your say at state level: Participation in research and consultations to inform and influence state and local government policy in areas relevant to Neighbourhood Houses and their communities, e.g. funding, child care, etc.

Data: access to information in addition to your individual NH dataset, and capacity to influence the way data is collected

Profile-raising: through Neighbourhood Houses Victoria’s involvement in high-level committees and strategic partnerships

Publicity: via the Neighbourhood Houses Victoria website www.nhvic.org.au, Facebook page www.facebook.com/neighbourhoodhousesvic and Twitter @NHouses_Vic and the monthly newsletter Neighbourhood Houses Victoria News

Having a say at national level: through Neighbourhood House Victoria’s representation of Victoria on the Australian Neighbourhood Houses & Centres Association (ANHCA).

Information and support

Neighbourhood Houses Victoria News: 10 issues/year in hard copy and electronic formats, showcasing sector achievements and opportunities, and providing information on policy and industrial issues, funding opportunities and resources.

eBulletin: Weekly summary of timely funding, employment, volunteering and professional development opportunities, plus sector news and upcoming events.

Information and referral service: via email or phone on community governance, industrial issues, financial management, legal and regulatory requirements, planning, community promotion, conflict resolution, policy development, online information and communications tools.

Collective Agreement for Neighbourhood Houses and ACE Providers: facilitated by Neighbourhood Houses Victoria on behalf of the sector to ensure employment arrangements are attractive, fair and compliant.

Special offers

Annual conference: Discounted registration fees for members at Victoria’s premier professional development and networking event for Neighbourhood House staff, governance committee members and volunteers.

Jobs Australia: Discounted membership rates for Neighbourhood Houses Victoria members with the employer organisation that specialises in community sector industrial relations advice and support.

Building and Contents insurance: Competitively priced, tailored package for the NH&LC sector.

Leadership (Full members only)

Eligibility to nominate for the Neighbourhood Houses Victoria Board of Governance and Board Working Groups

Eligibility to vote in Board elections and at General Meetings
